

Board of Control, July 9, 1947, 4:55PM

The meeting was called to order by Don Packard. It was reported that cigarettes will be sold in the Co-op, on approval of Dr. Haggard. Sale has already been initiated.

There was discussion about the possibility of having a card game night or bridge party. Don Packard was delegated to contact the Recreation Committee about such an arrangement.

The submitted budgets for 1947-48 were discussed. It was suggested that a note be sent to each department concerning their budget and telling of various recommendations by the Board of Control. Don Packard and Halldor Karason will go over the budgets and list recommendations that were mentioned by the Board.

A pie-graph of the overall budget was submitted by Halldor Karason. He estimated on this graph that men's athletics spend about 67% of our total income.

Since there was not a quorum present the Board could not officially pass the submitted budgets. This should be done at the next Board of Control meeting.

There was some discussion of how we could get better crowds at athletics contests. One idea was that we might ask Bellingham Transit Company to run special busses up to the gym for basketball games.

Meeting was adjourned at 6:00.

Donna Brown
Acting Secretary
