

that in Paey's to a company by this mail. It will be there for some weeks, and it would be a good opportunity of reading by way of a paper. I can bargain with them and get not drag the carriage - I

was not hurt without writing as no Nevada
settled down for the winter in our successful
collapse by the wood shed and are very comfortable
We have built a stable and have our horses
up at home and do all the dirty work about
after them and so that we have no
the house so that we have no
in Mexico excepting cooking, making out
own money and doing the house work
fell on my back and a friend went on
an excursion up the Sierra Nevada
and our Canal. He started from here in
one Buggy, a kind of low phaeton with only one seat
very strong, and built on purpose for these
roads. I know of several and our friend riding
from here to Bear Valley the first day. It runs off
and stayed at a Ranch there all night.
